SPACEPORT CORNWALL

CENTRE FOR SPACE TECHNOLOGIES

A Place for Space *for* Good.

spaceportcornwall.com/CST

Space for Good.

The Centre for Space Technologies (CST) is a series of world-leading R&D and innovation facilities designed to provide safe, dedicated and responsible access to space.

Our vision is to connect people, businesses and ideas, to benefit people and planet.

CENTRE FOR SPACE TECHNOLOGIES

Space Systems Integration Facility

Launch critical to enable Virgin Orbit, and future launch operators, to test space technologies and satellites. Available for additional business use outside of launch campaigns.

Space Systems Operations Facility

Open to businesses and academia from February 2023 the Operations Facility is the focal point of Spaceport Cornwall. It's where companies will locate and collaborate, and where Responsible Launch services and research will be born.
